

# Dostmann BB500 IR CALIBRATOR

- **Blackbody Calibrator for IR Thermometers**
- **0.95 Emissivity**
- **Temperature Range:+50...+500°C**
- **Portable Lightweight Construction**

## **Applications**

For checking and calibration of non-contact temperature measuring instruments. Ideal for comparison calibration with a reference instrument. Being a light weight and compact design, it lends itself to mobile calibration operations.

## **Technical Specification**

Temperature Range	+50 °C to 500 °C
Display Resolution	0.1C°
Display Accuracy	+/-1C°
Stability	+/-0.1°C +50..100°C
	+/-0.2°C +101..350°C
	+/-0.4C +351..500C
Power Supply	230VAC
Dimensions	180 x 114 x 233 mm
Weight	2682g
